Respected sir ,

You may not accept the fact about regarding this matter. I have reminded the customer's several times not to send money through Google pay. But still they haven't listen to my words and they are sending money through my google pay. What can I do against this? All dues are clear. I have a humble request, please don't send such auditors to my customers. My customers have lost trust towards me as well as towards company. I'm not a fraud as you have found. I am the only one who was for my family. Therefore please understand my innocence and please allow my work.
